

COMPUTERWORLD HONORS ENLISTS INTERSYSTEMS CEO AND FOUNDER TO CHAIRMEN'S COMMITTEE

FOR IMMEDIATE RELEASE, Framingham, MA– Bob Carrigan, Chairman of the Computerworld Honors Program Chairmen's Committee and President of IDG Communications, has announced that Phillip T. Ragon, CEO and Founder, InterSystems, Corp., a leading business process and IT services firm, has joined its prestigious Chairmen's Committee.

Comprised of an elite group of top technology executives, the committee strives to recognize IT companies that have leveraged technology through the betterment of society.

"Phillip T. Ragon and other members of the Chairmen's Committee are chosen for their unmatched awareness of how technology can be implemented to achieve the organization's greater goals," said Carrigan. "Ragon and his peers will be fundamental in helping to recognize those individuals that truly embody the spirit of the program."

The Computerworld Honors Program (<http://cwhonors.org>) unites Chairmen and CEOs of the world's foremost information technology companies to recognize the most outstanding user achievements in technology each year. The process culminates with an awards ceremony, which will take place on June 4, 2007 in Washington, D.C., with a guest list that represents a who's who in IT. The technology achievements honored by this program are preserved and protected in national archives, and in over 350 universities, museums and research institutions throughout the world.

"Every company, every leader in the global business community can learn from and be inspired by the organizations that are recognized by the Computerworld Honors Program each year," said Phillip T. Ragon, CEO and Founder of InterSystems, Corp. "This year honorees are sure to set new standards for technology innovation and societal impact. InterSystems is proud and excited to be part of this important program."

As members of the Committee, Ragon and his peers will help to identify the organizations whose use of information technology has been especially noteworthy for the originality of its conception, the breadth of its vision and the significance of its benefit to society.

About InterSystems

For over 25 years, InterSystems Corporation has been a technology innovation leader in database and integration software. The CACHÉ post-relational database and Ensemble rapid integration software enable developers in every industry sector to quickly create, deploy and integrate high-performance applications. With world headquarters in Cambridge, Massachusetts, InterSystems has offices in 20 countries and provides support to customers in 88 countries.

InterSystems is a leader in integration technology and the world's #1 database provider in healthcare, with its products used by most major hospitals and labs, including America's 10 best hospitals as rated by U.S. News and World Report. For more information, visit www.InterSystems.com

About the Computerworld Honors Program

Founded by International Data Group (IDG) in 1988, the Computerworld Honors Program is governed by the not-for-profit Computerworld Information Technology Awards Foundation. In its 19th year, Computerworld Honors is the longest running global program to honor individuals and organizations that use information technology to benefit society.

Each year, the program's Chairmen's Committee, a group of 100 Chairmen/CEOs of global technology companies, nominates individuals and organizations around the world whose visionary application of information technology promotes positive social and economic progress. Nominations are evaluated by an independent board of CIO-level judges who select laureates, finalists and award winners, in 10 industry-related categories, to be honored at a Laureate Medal Ceremony. This year's ceremony and accompanying Gala Awards Program will take place on June 4, 2007 at the Andrew W. Mellon Auditorium in Washington, D.C.

The technology achievements honored by this program are preserved and protected in national archives, and in over 350 universities, museums and research institutions throughout the world. Additional information about the program and a Global Archive of past laureate case studies and oral histories can be found at the Computerworld Honors website: www.cwhonors.org.
