EASY TO USE SOFTWARE ALLOWS TRADERS TO MAKE THE MOST OUT OF THEIR TRADES, WHETHER TRADING FULL OR PART-TIME, AND IS DESIGNED TO HELP TRADERS MINIMIZE LOSSES, WHILE MAXIMIZING PROFITS. [2002393]

SUMMARY

MetaStock is incredible market analysis software used for trading the different markets. This easy to use software allows traders to make the most out of their trades, whether trading full or part-time. MetaStock software is designed to help traders minimize losses, while maximizing profits.

APPLICATION

MetaStock has the ability to automate trading and find the most profitable system/security combination. Razor sharp charts of stocks, commodities, indices, mutual funds, and bonds can be adjusted in an instant. MetaStock's Object Oriented Interface allows the user to click on any object (background, price bars, indicators, text, symbols) and make instant changes with the short cut menu. This interface also allows the user to select any item and move it where you want, even to another chart within MetaStock.

MetaStock Highlights

- View 9 styles of razor sharp charts.
- Create, backtest, compare, and optimize multiple securities against multiple systems.
- Get strong buy and sell signals and automate your trading.
- Screen securities with The Explorer to find those with the best potential.
- Apply an incredible array of indicators and line studies to your charts.
- Build your own indicators.
- Access fundamental information for added insights.
- Receive pager and email alerts with MetaStock Professional.
- The object-oriented interface makes MetaStock easy to use.

- Easily adjust your charts with the individual chart toolbars.
- Receive top quality help with our outstanding technical support desk.

BENEFITS

MetaStock is designed to help people make the most out of their trades, while eliminating the stress involved with trading the markets. This system aids in fast and effective trading.

IMPORTANCE

MetaStock would not exist without information technology, so it is very important to our project.

ORIGINALITY

MetaStock software has been around for over 20 years. Over that period of time the software has been upgraded and refined to meet the needs of our customers and compete with the somewhat recent emergence of similar software companies. So, MetaStock software is somewhat original, but evolving from year to year.

SUCCESS

MetaStock has firmly established itself as the #1 technical analysis software receiving more award than any other software in its class. These awards include:

- The Reader's Choice Award for Best Trading Software from Technical Analysis of Stocks and Commodities magazine (\$299-\$499 category) for 11 years running.
- The Reader's Choice Award for Best Trading Software from Technical Analysis of Stocks and Commodities magazine (\$500 and above category) for 2 years running (MetaStock Professional).
